

We are pleased to announce the **Alliance** of our three firms, **Xwells**, **Fact-O-Rig** and **Kingston Systems**. As one unit we are now able to offer a single one-stop shop of industry rig inspection specialists to meet all of your rig intake needs regardless of your custom situation.

By combining our **specialties** with our history of **project execution performance** we are creating the standard for **Rig Intake Excellence**, providing **superior inspection & verification** services in line with **API, DNV** and **ABS** recommendations.

Our main areas of focus include:

- Rig Intake Planning and Mgmt.
- Mech. & Elec. inspection service
- BOP verification
- Software and Controls assurance
- Deepwater & Land
- Commissioning & Acceptance Testing

The Alliance solution offers operators **one expert source** for rig intake project execution. Or the flexibility to **select and choose** services to fit current need. Both with the assurance that the assigned team has the **experience, tools** and **cohesion** to execute with required diligence. By engaging the Alliance you will **reduce** your overall intake **risk**. **The Alliance is the solution** to the Walmart approach of rig intake acceptance.

SINGLE SOURCE VALUE

- Better Customer Service
- Team Cohesion
- Experienced Personnel
- Proven Processes
- Unbiased Observation
- Reduced Rig Intake Risk
- Reduced Cost
- Operational Confidence
